

Apprentice Engineers in PGS/RGE or PEPD

Maurel et Prom is a French oil operator headquartered in Paris 8th. We are listed on the SBF 120. We have approximately 760 employees at the Group level, with around 556 employees in Gabon. Our presence is primarily in Africa (Gabon, Tanzania, and Angola) as well as in South America (Colombia and Venezuela). Specializing in hydrocarbon exploration and production, we mainly produce crude oil in Gabon and gas in Tanzania (supplying 50% of the country's gas needs). In Angola, we operate as a partner with the national company Sonangol. Holding a 20% stake in the company SEPLAT in Nigeria represents a financial asset for the Group.

Job Description:

We are looking for two motivated apprentice engineers in PGS/RGE or PEPD programs to join a specialized team in petroleum engineering and project development. The selected candidate will work closely with industry experts to gain practical experience and valuable technical skills in the field.

Requirements:

- Student recently graduated from an engineering school or in the final year
- Skills in numerical modeling, simulation, and physical sciences. Knowledge of geology would be appreciated
- Ability to work effectively in a team and communicate clearly
- Strong motivation to learn and proactively contribute to projects
- Proficiency in French and English, both oral and written; Spanish would be a plus

Working Conditions:

Are you looking for an international and supportive environment? We offer an apprenticeship contract, with alternating training periods between IFP School and our company starting in Sept. 2024.

Interested?

Please send your CV and cover letter to the following email address: rh@maureletprom.fr, stating "Application for apprenticeship in PEPD or PGS/RGE, IFP School" before March 30, 2024.
